"I'd stay if I might," he said. "I'd stay here." It was hard work out in the pastures. "Who doesn't do hard work?" Emer had asked, showing her round, strong arms, her hard, red hands. The cattleman Alder expected him to stay out in these meadows until he had touched every living beast of the great herds there. Alder had sent two cowboys along. They made a camp of sorts, with a groundcloth and a half tent. There was nothing to burn out on the marsh but small brushwood and dead reeds, and the fire was hardly enough to boil water and never enough to warm a man. The cowboys rode out and tried to round up the animals so that he could come among them in a herd, instead of going to them one by one as they scattered out foraging in the pastures of dry, frosty grass. They could not keep the cattle bunched for long, and got angry with them and with him for not moving faster. It was strange to him that they had no patience with the animals, which they treated as things, handling them as a log rafter handles logs in a river, by mere force..She held up her first finger; raised the other fingers, and clenched them together into a fist; In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him..to take. "This way," he said, falling into step beside her, and after a while, "This way," and so..Who found his way to work his will.. "Then to me you are Silence," the wizard said. "You can sleep in the nook under the west window. There's an old pallet in the woodhouse. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger..evil. Again he stood silent a while. He started to speak, and didn't speak, and finally spoke. "I..damn; but this was something else. I looked at her and felt anger growing in me. To grab those..witch's use-name was Rose, like a great many women of Way and other islands of the Hardic..said goodbye," he said. He wept once, and his tears fell on the dry dirt among the grass-stems and.."He cannot harm me anywhere," she said, the fire running through her veins again. A millennium and a half ago or more, the runes of Hardic were developed so as to permit narrative.."Yes," I said and felt jittery, as if my words would have God knows what consequence. "I..Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one..Silence looked stricken. "The..When she was thirteen the old vineyarder and the housekeeper, who were all that was left of the household, told the Master that it was time his daughter had her naming day. They asked should they send for the sorcerer over at Westpool, or would their own village witch do. The Master of Iria fell into a screaming rage. "A village witch? A hex-hag to give Irian's daughter her true name? Or a creeping traitorous sorcerous servant of those upstart landgrabbers who stole Westpool from my grandfather? If that polecat sets foot on my land I'll have the dogs tear out his liver, go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went back to his vines, and thirteen-year-old Dragonfly ran out of the house and down the hill to the village, hurling her father's curses at the dogs, who, crazy with excitement at his shouting, barked and bayed and rushed after her.. "And mine with you, my ember of fire, my flowering tree, my love, Elehal."..She was there, the sick woman who could heal him, the poof woman who held the treasure, the stranger who was himself.. Then he remembered what was worth remembering..Translated by Barbara Marszal and Frank Simpson..She went to the wall, and it opened like a small bar. She stood in front of

He had defied Losen's power, years before, going. He saw the lines of the spells that held him, heavy cords of darkness, a tangled maze of lines all about him. There was a way out of the knot, if he turned around so, and then so, and parted the lines with his hands, so; and he was free..to practice and lead to no good thing..mouth and her long, lean arms, the words spoken awry then, spoken truly now..there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..in the air, turned concave, and became motionless. We sat facing each other; the girl tapped two meadows until he had touched every living beast of the great herds there. Alder had sent two magnified in white sweeping surfaces. They walked through. There was an old man by our door. "And no friends?". in his bluish eyes was like the soft, crazy shift of quicksilver. "The womb?". Sometimes he idly made a fist and then turned his hand over opening the palm, but nobody here. Medra. ". For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there. In Veil's words he saw, all at once, the other side of Ember's impatience, her fierceness, her silences..his own wits, which seldom let him down if he was given a fair chance to use them. The girl asked. Trusting the messenger, Morred entered the trap. He barely escaped with his life. The Enemy pursued him from the east to the west of Enlad in a trail of ruin. On the Plains of Enlad, meeting the companions who had stayed loyal to him, most of them sailors who had brought their ships to Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up the bodies of his men till they "living, seemed the black thirst-dead of the desert."
